

India's Hub of Additive Manufacturing Innovation

amtech[®] Expo
Shaping your AM Business

**3 & 4 DECEMBER 2025
KTPO, BENGALURU**

Introduction to **AMTECH**

A Decade of Additive Manufacturing Excellence

Since its inception, AMTECH has grown to become India's premier platform dedicated to Additive Manufacturing and 3D Printing technologies. With a decade of commitment, AMTECH has played a pivotal role in shaping the AM industry, bringing together innovators, solution providers, and end users under one roof.

AMTECH 2025 Overview

AMTECH 2025 will showcase the latest Additive Manufacturing solutions with two new zones focussing on Reverse Engineering, 3D Scanning and Digital Manufacturing as enabled by Additive Manufacturing, reinforcing its position as the hub of AM innovation in India.

Why **AMTECH** Matters

The Hub of Additive Manufacturing in India

AMTECH connects key stakeholders, providing unmatched opportunities for networking, lead generation, and knowledge sharing. Previous editions have witnessed steady growth in participation, establishing AMTECH as a must-attend event in the industry.

Engineering

Featured Zones @ AMTECH 2025

Presence from the major industrial users of Additive Manufacturing who are driving the adoption & evaluating new technologies.

Enhancing product design through **reconstruction, analysis, & precision measurement**

Reverse Engineering & 3D Scanning Zone

Digital Manufacturing Zone

Integrating **digital technologies, warehousing, digital twin, & efficient production processes** through digital integration

36% Polymer Applications

31% Metal Applications

34% Investment Intent
